

FEATURES

CEI" Y" strainer is recommend for use in water,oil, gas and steam piping to provide economical protection for pumps, meters, control valves,compressors, traps and similar equipments.

Available body materials are cast iron, ductile iron and carbon steel, standard material for screen is 304 stainless steel plate perforated in 60 degree staggered arrangement, resisting corrosion and hightemperature.

*CEI reserves the right to make change of the design and dimensions of its products without prior notice.

SPECIFICATIONS

Pressure Rating:	Cast Iron - 10kg/cm ² Ductile Iron - 16kg/cm ² Carbon Steel - 20 kg/cm ²
Connection:	JIS,ANSI,BS/DIN
